The Environmental Assessment Act, 1975

RRCA-1

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Raisin Region Conservation Authority that an undertaking, namely:

The construction of the Fly Creek Drainage Scheme located in the City of Cornwall, consisting of channel improvements, storm water retention ponds and pumping station installation

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

The residents in the northeast portion of the City of Cornwall will be interfered with in that any delay in constructing the drainage scheme could result in another season of flooding due to the inadequacies of the existing land drainage facilities.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The Raisin Region Conservation Authority has advised that there are no environmentally sensitive features which may be affected by the proposed facilities and the construction of the facilities will not cause any undue environmental degradation;
2. The undertaking must be approved under Section 42 of *The Ontario Water Resources Act* prior to implementation; and,
3. The preliminary engineering design for the facilities has been completed and Provincial funding for the undertaking may be available in the near future.

This exemption is subject to the following terms and conditions:

1. That construction of the undertaking commence by July 3, 1979.
2. That the construction of the undertaking be completed by December 1, 1980.
3. That the construction of the undertaking be carried out in accordance with the appropriate guidelines as set forth in the Ministry of the Environment publication "Environmental Considerations for the Planning and Construction of Provincial Sewer and Water Projects, February 1977".

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto this 15th day of August, 1978.

GEORGE R. MCCAGUE,
Minister of the Environment.

Approved by
O.C. No. 2209/78

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of the Environment that the undertaking namely:

The activity of constructing the Township of Casimir, Jennings and Appleby — Community of St. Charles Provincial Sewage Works Project #1-0179, designed to collect, transmit and treat sewage, consisting of a sanitary sewer collection system together with a pumping station and forcemain plus a lagoon located approximately 5200 feet from the centre of the community,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by delaying sewage works for St. Charles that are presently under design and are tied to a tight schedule and pre-committed funding, and
2. The public will be interfered with by delaying the construction of facilities upon which the property owners of St. Charles are depending to correct the existing condition of raw sewage running in the ditches.

Having been advised that this undertaking was inadvertently omitted from the request for Exemption Order MOE-5 dated October 14, 1976 and published in THE ONTARIO GAZETTE November 13, 1976 and its replacement Order MOE-5/2 dated August 29, 1977 and published in THE ONTARIO GAZETTE September 24, 1977, and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force for such projects and had reached a sufficiently advanced stage that the interference with the proponents which would be caused by the application of the Act would be undue,
2. The undertaking was only omitted from Exempting Order MOE 5/2 by inadvertence, and
3. The site for the sewage treatment facility in St. Charles was subject to a public hearing held on July 6, 1976 under *The Ontario Water Resources Act* before the Environmental Assessment Board which recommended approval and approval was subsequently given under Section 42 of *The Ontario Water Resources Act* on August 16, 1976.

This exemption is subject to the same terms and conditions as in Exemption Order MOE 5/2.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto this 15th day of August, 1978.

GEORGE R. MCCAGUE,
Minister of the Environment.

O.C. No. 2210/78

MTC-13

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking namely:

The Activity of carrying out planning, design, provision and construction under the portion of the Ministry of Transportation and Communications' Capital Construction Program of Provincial road construction consisting of those named works listed in the attached schedule,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of projects for which design and construction has been scheduled for completion by the 1st day of January 1980; and
2. The public will be interfered with by delay in the carrying out of highway projects; and

Having been advised of an existing environmental screening process implemented by the Ministry of Transportation and Communications with respect to projects commenced before the Act came into force; and

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. In that there has not been sufficient time to complete the Class Environmental Assessments to cover the projects listed here and in that they will be substantially completed prior to January 1, 1980, the interference with the Provincial road construction program of the Ministry of Transportation and Communications which would be caused by the application of the Act would be undue; and
2. The protection, conservation and wise management of the environment will be sufficiently provided for in the interval prior to the completion of the Class Environmental Assessment by the environmental screening process already followed by the Ministry of Transportation and Communications as part of its policy;

This exemption is subject to the following terms and conditions:

1. For those projects associated with this portion of the program of Provincial road construction, construction of which will not be substantially completed by the 1st day of January, 1980, the Ministry of Transportation and Communications shall prepare and submit an Environmental Assessment;
2. Where an Environmental Assessment is submitted for a project pursuant to Condition 1, the project shall be deemed to be a separate undertaking from the program; and
- 3.—(1) That the Minister of Transportation and Communications:
 - (a) prepare at least quarterly, a list of all proposed projects in the program indicating which, if any, of the projects an Environmental Assessment is to be prepared for; and
 - (b) send a copy of each such list to the Director of the Environmental Approvals Branch of the Ministry of the Environment to be kept with the records of Environmental Assessments and made available to the public in the same way as such records;
- 3.—(2) It is not necessary to include in a list mentioned in subsection 1, any project listed in a previous list which is being proceeded with in accordance with the timetable specified in such list.
4. Where an approval to proceed has been obtained under the Act for an undertaking which includes all or part of a work

listed in the schedule such work or part thereof shall be carried out in accordance with the terms and conditions of the approval.

Dated at Toronto this 15th day of August, 1978.

GEORGE R. MCCAGUE
Minister of the Environment.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The Activity of carrying out planning, design, provision and construction of an airport and related facilities under that portion of the Ministry of Transportation and Communications' program of Remote Airport Construction at Bearskin Lake be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The local residents will be damaged by the delay in provision of a year round supply service which would be caused by application of the Act;
2. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of the project for which design and construction has been scheduled for completion in the summer of 1978;

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking is unlikely to have any significant adverse environmental effects, in fact the community of Bearskin Lake will benefit in the provision of a year round air service where only float or ski plane service which could only be operated in summer and winter existed before.
2. The Ministry of Transportation and Communications' investigations have indicated that the proposed undertaking will have no significant adverse effect on the environment. An Environmental Status Statement has been submitted describing the nature of the undertaking, the environmental conditions existing at the proposed site, the condition change which may result from the undertaking, and the measures which the Ministry of Transportation and Communications has utilized to minimize any identified concern.

3. Contact has been made with the Bearskin Lake Reserve Council. No social or natural environmental concerns have been identified by them;
4. The Bearskin Lake project is one of six Remote Airport Development Projects identified by the Ministry of Northern Affairs in the spring of 1978, and the Ministry of Transportation and Communications has not had sufficient time to prepare and have approved an environmental assessment.

This exemption is subject to the following terms and conditions:

1. This project be substantially completed by January 1, 1980;

2. The Environmental Status Statement shall be kept in the public record and made available to anyone wishing to see it.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto this 15th day of August, 1978.

GEORGE R. MCCAGUE
Minister of the Environment.

THE CORPORATION OF THE TOWN OF EXETER

NOTICE IS HEREBY GIVEN that the Corporation of the Town of Exeter intends to apply to the Legislative Assembly of the Province of Ontario for Special Legislation to provide that:

1. An Act respecting the Village of Exeter, Statutes of Ontario, 1899, Chapter 47 is repealed.

2. Village of Exeter By-Law No. 8, 1899, Being a By-Law to provide a fixed general mill rate for farmland in blocks of not less than 20 acres is repealed.

In 1899, the Municipal Council of the Corporation of the Village of Exeter set a fixed rate of three and one-half mills on the general mill rate, together with rates for debenture debt, school and county purposes. The relief was granted to owners of farmland in blocks in excess of twenty (20) acres for such services as electric lighting, fire protection, sidewalks, etc. Assessment and mill rates have changed over the years. Some properties assessed as farmland have residences attached, enjoying these services that exemption was granted for. Council of the Corporation of the Town of Exeter deem this fixed rate for farmland no longer equitable or fair.

By applying to the Provincial Legislature for the Act and By-Law to be repealed will cause the owners of the said parcels of farmland to be subject to the full general municipal mill rate (including debenture debt), as well as the rates for school and county purposes.

Dated at Exeter, this 25th day of July, 1978.

Clerk-Treasurer,
Town of Exeter,

The Environmental Assessment Act, 1975

MOE-12

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of the Environment that the undertaking namely:

The activity of constructing the Township of Casimir, Jennings and Appleby—Community of St. Charles Provincial Sewage Works Project #1-0179, designed to collect, transmit and treat sewage, consisting of a sanitary sewer collection system together with a pumping station and force-main plus a lagoon located approximately 5,200 feet from the centre of the community,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by delaying sewage works for St. Charles that are presently under design and are tied to a tight schedule and pre-committed funding; and
2. The public will be interfered with by delaying the construction of facilities upon which the property owners of St. Charles are depending to correct the existing condition of raw sewage running in the ditches.

Having been advised that this undertaking was inadvertently omitted from the request for Exemption Order MOE-5 dated October 14, 1976 and published in THE ONTARIO GAZETTE November 13, 1976 and its replacement Order MOE 5/2 dated August 29, 1977 and published in THE ONTARIO GAZETTE September 24, 1977; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The undertaking was well underway before the Act came into force for such projects and had reached a sufficiently advanced stage that the interference with the proponents which would be caused by the application of the Act would be undue;
2. The undertaking was only omitted from Exempting Order MOE 5/2 by inadvertence; and
3. The site for the sewage treatment facility in St. Charles was subject to a public hearing held on July 6, 1976 under *The Ontario Water Resources Act* before the Environmental Assessment Board which recommended approval and approval was subsequently given under Section 42 of the O.W.R. Act on August 16, 1976.

This exemption is subject to the same terms and conditions as in Exemption Order MOE 5/2.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 5th day of September, 1978.

HARRY C. PARROTT, D.D.S.,
Minister of the Environment.

Treasurer’s Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner’s assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

COUNTY OF LAMBTON

To Wit:

BY VIRTUE OF A WARRANT under the hand of the Warden and the Seal of the County of Lambton, bearing date the fifteenth day of September, 1978, and to me directed, commanding me to levy upon the lands mentioned in the following list for arrears of taxes due thereon and the costs therein set forth, I hereby give notice that, unless the said arrears and costs are sooner paid, I shall proceed to sell the said lands by public auction at the Council Chamber in the County Administrative Buildings, in the City of Sarnia, on Tuesday, the 9th day of January, 1979, beginning at the hour of 2 o’clock in the afternoon, in compliance with the provisions of *The Municipal Act*.

AND FURTHER TAKE NOTICE that an adjourned sale will be held if necessary, same hour and place one week later.

NOTICE OF MOTION

1. TAKE NOTICE that an application will be made on behalf of the Respondents/Applicants by Motion, Direct Winters Transport Limited and Husband Transport Limited, pursuant to Section 17 of *The Ontario Highway Transport Board Act*, R.S.O. 1970, Chapter 316, before the Ontario Highway Transport Board, at its Chambers, Britannica House, 151 Bloor Street West, Toronto, Ontario, on such day and at such time as the Board may direct for an Order revoking the Orders of Vice Chairman G. C. Marrs, dated the 25th day of July, 1978 and the 29th day of August, 1978, on the following grounds:

- (a) The Learned Panel erred in law in that there was no evidence of a transportation service being provided by the transferor pursuant to the licenses sought to be transferred to the Applicant and that such licences were in fact dormant.
- (b) The Learned Panel erred in fact when it failed to make the determination that the transferor did not possess an ongoing business, in the form of goodwill, customers list and equipment which would pass to the Applicant on completion of the sale.
- (c) The Learned Panel erred in approving the transfer of temporary licences when such transfer is and was contrary to sound licensing principles.
- (d) The Learned Panel erred in fact when it failed to make the determination, upon the facts adduced, that the sole intent of the transfer was to effect the sale of licences and that such a sale constituted trafficking in licences in a manner that was and is contrary to both licensing principles and the policy of the Ontario Highway Transport Board.

AND TAKE NOTICE that in support of the Motion, the original application will be read, the proceedings and exhibits filed herein will be referred to and the Orders of the Learned Panel.

Dated at the Municipality of Metropolitan Toronto, this the 20th day of September, 1978.

IN THE MATTER OF *The Public Commercial Vehicles Act*, R.S.O. 1970, Chapter 375, as amended; and

IN THE MATTER OF an application by Security Delivery Services Limited for a Class 'A' public commercial vehicle operating licence; and

IN THE MATTER OF an Order dated July 28th, 1978,
issued by the Ontario Highway Transport Board.

NOTICE OF MOTION

TAKE NOTICE that pursuant to Section 17 of *The Ontario Highway Transport Board Act*, Security Delivery Services Limited intends to move the Ontario Highway Transport Board on a date to be fixed by the Chairman of the said Board for an order directing:

- (a) A Review of its Order denying a Certificate dated July 28th, 1978;
- (b) re-argument before the same Members of the Ontario Highway Transport Board as were seized with the original application; and
- (c) such further and other Order as this Honourable Board may deem just.

The grounds upon which this Notice of Motion is based are as follows:

1. The Decision of the presiding panel is against the evidence and the weight of the evidence;
2. the denial of the certificate granting a Class 'A' public commercial vehicle operating licence to the extended commercial zone denies to this applicant a right which has been extended to hundreds of similar companies;
3. the presiding panel failed to appreciate the effect of its decision on the supporting shippers;

For Approval of a By-law to Change the Names of Various Highways.

TAKE NOTICE that pursuant to the provisions of paragraph 97 of subsection 1 of section 354 of *The Municipal Act*, R.S.O. 1970, Chapter 284, His Honour Colin S. Lazier, Esquire, a Judge of the County Court of the Judicial District of Hamilton-Wentworth, has appointed Wednesday, the 22nd day of November, 1978 at the hour of 10.00 o'clock in the forenoon, local time, at his Chambers in the Court House, 50 Main Street East, in the City of Hamilton, in the Regional Municipality of Hamilton-Wentworth, for considering a By-law of The Corporation of the City of Hamilton, for changing the names of highways set forth below as Schedule "A" to this Notice, and for hearing those advocating or opposing the changes of names set forth in the said By-law.

SCHEDULE "A"

Bill No. 259

The Corporation of the City of Hamilton
By-Law No. 78

To Enact:

A By-law to Change Street Names

Whereas paragraph 97 of subsection 1 of section 354 of *The Municipal Act*, R.S.O. 1970, Chapter 284 does provide that a municipality may by by-law change the names of highways and shall state the reason therefor.

Now Therefore the Council of The Corporation of the City of Hamilton enacts as follows:

1. The name of the following highway shall be changed for the reason set forth:

From Greenock Road to Nebo Road, all of Greenock Road extending between Rymal Road East and Stone Church Road East for the reason that Greenock Road is a new extension of Nebo Road and it is therefore desirable to establish a uniformity in street names between the extension and the existing Nebo Road.

2. A copy of this By-law certified under the hand of the City Clerk and the seal of The Corporation of the City of Hamilton and the Judge's Certificate shall be registered in the Registry Office for the Registry Division of Wentworth.

3. The Traffic Commissioner is hereby authorized and directed to affix at the corners of the highways referred to in section 1, on public or private property, highway name-signs bearing the new names of the highways and to maintain the new highway name-signs in proper condition.

Read a first and second time on the 26th day of September, 1978.

Read a third time and passed by the Council of The Corporation of the City of Hamilton, this day of _____, 1978.

CERTIFIED A TRUE COPY:

E. A. SIMPSON,
City Clerk.

Notice of Application by the Council of The Corporation of the City of Hamilton.

For Approval of a By-law to Change the Names of Various Highways.

TAKE NOTICE that pursuant to the provisions of paragraph 97 of subsection 1 of section 354 of *The Municipal Act*, R.S.O. 1970, Chapter 284, His Honour Colin S. Lazier, Esquire, a Judge of the County Court of the Judicial District of Hamilton-Wentworth, has appointed Wednesday, the 22nd day of November, 1978 at the hour of 10.00 o'clock in the forenoon, local time, at his Chambers in the Court House, 50 Main Street East, in the City of Hamilton, in the Regional Municipality of Hamilton-Wentworth, for considering a By-law of The Corporation of the City of Hamilton, for changing the names of highways set forth below as Schedule "A" to this Notice, and for hearing those advocating or opposing the changes of names set forth in the said By-law.

SCHEDULE "A"

Bill No. 259

The Corporation of the City of Hamilton
By-Law No. 78

To Enact:

A By-law to Change Street Names

Whereas paragraph 97 of subsection 1 of section 354 of *The Municipal Act*, R.S.O. 1970, Chapter 284 does provide that a municipality may by by-law change the names of highways and shall state the reason therefor.

Now Therefore the Council of The Corporation of the City of Hamilton enacts as follows:

1. The name of the following highway shall be changed for the reason set forth:

From Greenock Road to Nebo Road, all of Greenock Road extending between Rymal Road East and Stone Church Road East for the reason that Greenock Road is a new extension of Nebo Road and it is therefore desirable to establish a uniformity in street names between the extension and the existing Nebo Road.

2. A copy of this By-law certified under the hand of the City Clerk and the seal of The Corporation of the City of Hamilton and the Judge's Certificate shall be registered in the Registry Office for the Registry Division of Wentworth.

3. The Traffic Commissioner is hereby authorized and directed to affix at the corners of the highways referred to in section 1, on public or private property, highway name-signs bearing the new names of the highways and to maintain the new highway name-signs in proper condition.

Read a first and second time on the 26th day of September, 1978.

Read a third time and passed by the Council of The Corporation of the City of Hamilton, this day of _____, 1978.

CERTIFIED A TRUE COPY:

E. A. SIMPSON,
City Clerk.

The Board shall rehear the following Notice of Motion previously heard on 15th December, 1977.

IN THE MATTER OF *The Ontario Highway Transport Board Act*, R.S.O. 1970, Chapter 316;

AND IN THE MATTER OF a certain application by J. G. Courier Services Ltd. for a public commercial vehicle Class 'D' licence authority.

NOTICE OF MOTION

TAKE NOTICE that J. G. Courier Services Ltd. intends to move the Ontario Highway Transport Board on a date to be fixed by the Board for an Order pursuant to Section 17 of *The Ontario Highway Transport Board Act* directing the rehearing by way of argument and/or the submission of new *viva voce* evidence of the application of J. G. Courier Services Ltd., heard by a panel of the Board consisting of J. A. Wardrop, Esq., and leading to the Board's decision dated the 12th day of July, 1977 denying a certificate.

The following are the grounds on which the Motion is based:

1. The Board's decision is not consistent with the evidence given by the witnesses both for the applicant and for the respondents.
2. The evidence given by the witness, James Huff, an officer of Whitefield Meat Packers Limited, clearly established a need for service from this carrier although not necessarily to the full extent claimed in the application.
3. The evidence of the said witness Huff and of the principal witnesses of the respondents established that the respondents had little or no real interest in the matter as the application if granted would not interfere with their business and they were in fact not in competition with the applicant.

4. That the decision of the Board was given before having received all evidence and material required by the sitting panel of the Board to be filed in order to assist in reaching its decision. Having precluded itself from considering all of the evidence which was in fact required by the Board to be filed, the Board has precluded itself from exercising its judicial function in a proper manner.

5. Such further and other material as counsel may advise and the presiding panel of the Board permit.

Dated at Mississauga, this 21st day of September, 1977.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

Order-in-Council

O.C. 3005/78

Copy of an Order-in-Council approved by Her Honour the Lieutenant Governor, dated the 18th day of October, A.D. 1978.

The Committee of Council have had under consideration the report of the Honourable the Minister of Transportation and Communications, wherein he states that,

Whereas in and by Chapter 23 of the Statutes of Ontario, 1978, entitled "The Public Vehicles Amendment Act, 1978", it is enacted that the Lieutenant Governor in Council may by order from time to time issue policy statements setting out matters to be considered by the Ontario Highway Transport Board when determining questions of public necessity and convenience and the Ontario Highway Transport Board shall take such matters into consideration together with such other matters as the Ontario Highway Transport Board considers appropriate where the application or reference is made after the policy statement is gazetted;

The Honourable the Minister of Transportation and Communications therefore recommends that the following be taken into consideration by the Ontario Highway Transport Board when determining questions of public necessity and convenience:

1. The availability of an efficient inter-urban bus passenger and associated express freight service, reflecting public demand and the integration of such service with all other passenger transportation systems in Ontario;
2. The need for competition to ensure the best service at the lowest cost to the public, while having regard to the economic impact on the licensed carriers;
3. The ability and willingness of the applicant to provide service for which there is public demand, combining, as appropriate to the market to be served, marginal or sub-marginal and profitable services;
4. The suitability of the applicant's proposed scale and style of operations in the market to be served.

The Committee of Council concur in the recommendation of the Honourable the Minister of Transportation and Communications and advise that the same be acted on.

Certified, R. A. FARRELL,
Deputy Clerk, Executive Council.

The Environmental Assessment Act, 1975

MGS-20

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of Government Services that an undertaking, namely:

The activity of constructing the Northwest Toronto Drivers' Vehicle Centre on a 30 acre site, lying within the Parkway Belt, between Airport and Torbram Roads, south of Steeles Avenue in Mississauga for the Ministry of Transportation and Communications,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown and the public will be interfered with and damaged by any undue delays or costs including those which might arise from a requirement to prepare an environmental assessment for an undertaking which will have no significant adverse effects on the environment and that is required by the Ministry of Transportation and Communications to overcome the current operational and administrative difficulties in The Driver and Vehicle Testing and Licensing Program's delivery which cannot be dealt with at the existing inadequate and separated Vehicle Centres to the west of Toronto.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order subject to the terms and conditions set out below that the undertaking is exempt from the application of the Act for the following reasons:

1. The Ministry of Agriculture and Food has evaluated the agricultural capability of the site, during the planning and hearing stages of the Parkway Belt West Plan, and at the time the Ministry of Government Services purchased the site, and the

evaluations indicate that the proposal would not constitute a significant loss of agricultural land;

2. The Ministry of Government Services has advised me that the existing municipal sewer and water facilities adjacent to the site are adequate to service the proposed development, the proposed development conforms with the existing municipal zoning for the site, and the municipality anticipates that the operation of the centre will not interfere with local traffic patterns; and
3. The proposed development conforms with the "general complementary use" designation given the site in the Parkway Belt West Plan. The fact that the proposed development must conform with the Parkway Belt West Plan, including the performance criteria to be achieved by development within a general complementary use area, will result in the design of the proposed facility, plans for its construction and operation and the nature of the proposed site being such that no adverse effects to the environment will be created.

This exemption is subject to the following terms and conditions:

1. That tenders for construction of the facility be awarded no later than December 31, 1982; and
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment between 30 and 100 days prior to the calling of tenders for the project advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current conditions under which the project is proposed are unchanged from conditions that existed on the date that this exemption order was issued.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 26th day of October, 1978.

HARRY PARROTT,
Minister of the Environment.

Approved by
O.C. No. 2889/78

MGS-21

The Environmental Assessment Act, 1975

Exemption Section 30

Having received a request from the Ministry of Government Services that an undertaking namely:

The construction and operation of Swine Research Facilities at the Arkell Research Station, including the construction and operation of the Swine Research Building, the Engineering Research Building, and facilities for the storage and treatment of liquid manure, and also including the field spreading of manure at the site,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act the following injury, damage or interference with the persons and property indicated will occur:

1. The Crown will be interfered with and damaged by the time required to prepare a review of the environmental assessment which would be a hardship to the Ministry of Government Services, and their Client, the Ministry of Agriculture and Food in the implementation of their program;
2. The operation of the Arkell Research Facility and in particular the Swine Research Program will be interfered with and be delayed and/or postponed until other research facilities can be made available; and
3. The public and the swine producers of the Province of Ontario will be deprived of practical research that will ensure and improve the safe and efficient operation of the industry.

Having weighed such injury, damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

The proponent has advised me that:

1. No adverse environmental effects are envisioned as part of this project and further, the proposed undertaking will help alleviate the present poor and inadequate conditions; and
2. The project is part of the plans of a long established facility that will be revitalized to demonstrate that fringe urban residential development can co-exist with agricultural/livestock operations.

This exemption order is subject to the following terms and conditions:

1. That tenders for construction of the facility be let no later than December 31, 1982;
2. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment, between 30 and 100 days prior to the calling of tenders for the project, advising that the Ministry of Government Services has reviewed the undertaking and is of the opinion that the current conditions under which the project is proposed are unchanged from conditions that existed on the date that this exemption order was issued; and
3. That the following preventative and mitigation measures shall be followed during the construction and operation of the proposed facility;
 - A. Trucks carrying loose building and demolition materials shall be properly covered.
 - B. All swine manure shall be handled in liquid form and aerated as required to avoid odour problems from storage and spreading.
 - C. Soil shall be removed from the construction site and stockpiled for the rehabilitation of the existing site of the swine facilities.
 - D. Any demolition of existing facilities shall be complete and shall include removal of all footings, concrete and gravel pads, asphalt, fences and posts, and abandoned roadways. The areas formerly occupied by demolished facilities shall be rehabilitated, with the soil stockpiled during the construction of the new facilities and shall be made suitable for the growing of field crops.
 - E. Procedures must be developed by the Ministry of Agriculture and Food or their designate to permit the effective monitoring of both the organic build-up of the soil, and the varying availability of leachable nitrates resulting from this build-up. In the short run, it will be sufficient to analyze the manure for nitrate content prior to spreading.
 - F. The liquid swine manure shall be spread at controlled rates during periods when crops make the best use of the fertilizer so that there will be no generation of excess nutrients.
 - G. Normal dust control measures shall be taken during the construction of the new facilities and demolition of the existing facilities.
 - H. The Ministry of Culture and Recreation shall be advised prior to the commencement of excavation so that they may be present to assess the archaeological significance of any findings during excavation or grading operations.

Dated at Toronto, this 26th day of October, 1978.

Minister of the Environment.
